

**T-2-4** is an initiative of Spokane Public Schools that all Spokane students will exit the doors at twelfth grade graduation academically prepared for college, a career, and to be productive and contributing members of our society. It is never too early for parents and schools to begin the discussion of college and goal setting with our children. What are your child's goals, dreams, and/or plans for the future? How can you help them plan? Together, we can support our children down the path to their personal and academic success. We are currently taking steps to strengthen our college-going culture at the elementary, middle, and high school level.
