

Spokane Public Schools is now providing Blackboard Mobile Apps for our students and teachers!! Information and mobile apps can be found here: <http://www.spokanevirtual.com/mobileSupport.php> or from within your Blackboard Home tab (*enter "Spokane Public Schools" at the school-name prompt*)

- **BB Student** mobile app is be an excellent resource for our students to access their Blackboard courses for learning (watching videos, reading texts, completing assignments/assessments, viewing gradebooks and more), accessing their calendars, and participating in web conferences with teachers from their cell phones and mobile devices.
- **BB Mobile Learn** mobile app is a way for teachers to access Blackboard from their mobile phones. This older version of the Blackboard's mobile app will be replaced later this school year with BB Teacher.
- **BB Grader** mobile app is only for iPads and allows teachers to review student assignments, provide feedback, and access inline grading from their mobile device. This app will be replaced later this school year with BB Teacher.

We are excited about helping students access learning right from their cell phones!
