

Spokane Virtual Learning Parent Observer Account

As a parent/guardian of an SVL student, you will have access to a **Parent/Observer Account** in Blackboard. This account has been created using the parent email on file at your student's school. The log-in is as follows

Go to: **bb.spokaneschools.org**

Username: **email account** (parent email currently on file at your student's school)

Password: **observer**

Follow your child by clicking into the classes he/she has access to. This may include some classes at the school that are using a "blended learning" model, not just SVL classes. In the actual SVL classes you should have access to view "My Grades".

If you have multiple students attached to your observer account you will need to switch between the individual users using the "parent dashboard" on the right side of your home tab within Blackboard.

Should your email address change, your blackboard account username will NOT change. However, please make sure the SVL office has your correct email on file as progress reporting and teacher communications are sent through email. You can reach the SVL office by calling 509.354.7585.

For issues related to your login or other Blackboard problems, please go to the main Blackboard page and click on the green "support" button to access our Blackboard support team.
